

Ultrasound Massage Boutique

Look Who's Kickin' Ultrasounds provides quality, high-resolution, three-dimensional, color ultrasound images and video of the experience so that this joyous occasion can be treasured for a lifetime. Blurry, hard to decipher 2D ultrasound printouts are a thing of the past. Upon completion of your session, your ultrasound video and 3D/4D ultrasound images will be presented to you so that you can immediately share your experience with friends and family.

Look Who's Kickin' was created to pamper the expecting mother. Treat yourself to one of our prenatal massages. Our specially trained therapists are eager to serve you and our massage packages are all specially tailored to focus on the areas that trouble expecting mothers the most. We know your pain and we can help!

Complete your pampering by shopping at our boutique which is full of products for the expecting mother and the baby. From parenting literature to unique gifts, you are sure to find anything and everything you need to be prepared for the arrival of your new child.

Prenatal Massages designed to
comfort expecting mothers:

Mom-To-Be Therapeutic Massage

This customized massage treatment is especially for expecting mothers. Gentle yet effective, this massage relieves tension in areas under stress, such as lower back and hips. Concentrating on your legs and feet allows relief from water retention and restores energy level. The perfect gift for the perfect mom and the new life within!

30-minute massage: \$45

60-minute massage: \$85

Vital Leg Massage and Treatment

This specialized leg session focuses on two treatments. To reduce water retention, the licensed therapist massages your legs, which promotes instant lightness and freshness. A detoxifying treatment increases circulation and restores life to fatigued legs. Session helps strengthen skin's capillaries and helps reduce the appearance of existing varicose veins. Treat yourself...you deserve it!

30-minute treatment: \$55

Face-Neck-Shoulder Massage

This soothing upper body massage focuses on often-neglected body parts to improve the health of the tissue. This includes lymph drainage and decongestive therapy techniques that consist of gentle strokes in the direction of lymph flow in the skin. This helps such conditions as stress, muscle spasms, chronic and allergic nasal problems and headaches. Complete head-to-shoulders bliss!

30-minute massage: \$38

We have both male and female massage therapists certified in prenatal massage.
